## Step 1: One Time Setup: Email and Printing Preferences

### Email Setup

1. Select **File > Preferences > Email Setup > Email Setup**.
2. Select the **Database** tab at the top.

3. Enter your **“To/From” Email Address**. This is the email address used only for testing the SMTP settings. The Sent From address for sales orders is set in **Setup > General > Email Addresses**, see Step 4 for more information.
4. Once the To/From Email Address is entered, the system will try to auto fill the **Server** and **Port**. If it's unable to fill the info, you'll have to get the information from your network administrator. They can also let you know what you should select in the **Require Login** and **Require secure connection (SSL/TLS)** field.
5. Click **Test**. An e-mail will be sent indicating the SMTP options have been set correctly. Verify that you received the CenterPoint: Testing SMTP Configuration email. See the [Email Setup](#) topic for additional information.

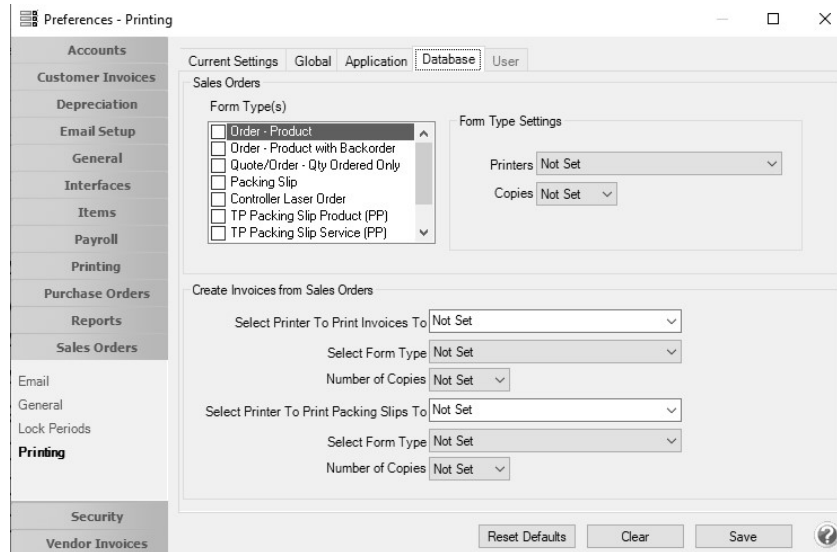

Note: If you didn't receive the email, then the settings in step 4 must be corrected.

6. Once the email is received, select **Save** in the Preferences screen.

## Sales Order Printing Preferences

Defines the form type(s) to use when printing sales orders, printer used to print sales orders and other selected form types, and the number of copies that will print when you choose to print sales orders and other form types.

1. Select **File > Preferences > Sales Orders > Printing**.
2. Select the **Database** tab at the top.

1. Under Form Type, all available sales order form types will display with System Default automatically selected (if you use Setup > Forms Designer > Sales Order Form Designer, you can create a new sales order form type.). The sales order form type can be overridden in Processes > Sales > Sales Orders. Select all forms that you want to print when a sales order is printed. Highlight the form type(s) you selected and then under Form Type Settings, set the following options:
  - » **Printers**- Select the printer to print the selected form type to. Setting this at the database level allows a different printer for each database.
  - » **Copies** - Select the number of copies to print of the selected form type.
2. Under Create Invoices from Sales Orders, the invoice settings below are used when invoices are created, posted, and printed from sales orders .
  - » **Select Printer To Print Invoices To** - Select the printer to print the invoices to. Setting this at the database level allows a different printer for each database.
  - » **Select Form Type** - Select the invoice form from the drop-down list. If you use Setup > Forms Designer > Invoice Forms Designer, you can create a new invoice form type that can be set here to be used as the default invoice form type.
  - » **Number of Copies** to print when you select to print invoices.
  - » **Select Printer To Print Packing Slips To** - Select the printer to print the packing slips to. Setting this at the database level allows a different printer for each database.
  - » **Select Form Type** - Select the packing slip form from the drop-down list.
  - » **Number of Copies** to print when you select to print packing slips.
3. Click **Save**.

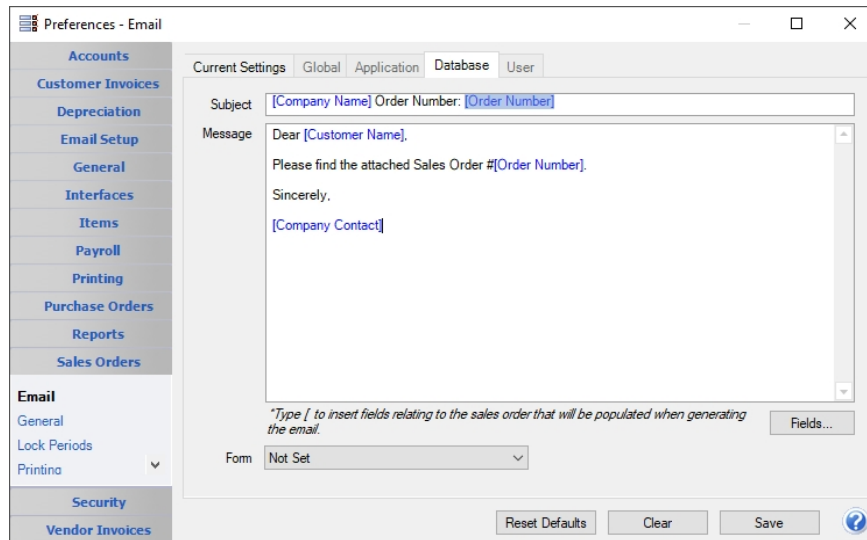

## Step 2: Define a Default Subject and Message for Emailed Sales Orders (Optional Setup)

If you'd like to use the same e-mail Subject, Message, and Form each time you email a sales order, it can be added to this preference. This preference also allows you to add Form Fields from the sales order data to the default Subject line or Message text.

1. Select **File > Preferences > Email > Sales Orders**.
2. Select the **Database** tab at the top.
3. Enter a default **Subject** and **Message**.
4. If you want to insert Form **Fields** into the Subject or Message of the email, click the **Fields** button at the location the form field should be inserted. The available Form Fields for sales orders are:

Company Address 1	Company Address 2	Company City, State, Zip	Company Contact	Company Email
Company Name	Company Phone	Company Web Address	Custom 1-8	Customer Abbreviation
Customer Name	Memo 1	Memo 2	Order Date	Order Number
Order Total	Payment Terms	Payment Terms Abbreviation	Shipping Method Abbreviation	Shipping Method

- » For example, you can customize the default Subject and Message for emailed sales orders to include data fields from the sales order data along with default text:
- a. In the **Subject** box, click **Fields**, select **Company**, type **Order Number:**, click **Fields** or type [, and then select **Order Number**.
  - b. In the **Message** box, type **Dear**, click **Fields** or type [, select **Customer Name**, and then type a **comma**.
  - c. In the **Message** box, type **Please find the attached Sales Order#**, click **Fields** or type [, select **Order Number**, and then type a period.
  - d. In the **Message** box, type **Sincerely,**.
  - e. In the **Message** box, click **Fields** or type [, select **Customer Contact**.

 Note: To create paragraphs, press your Ctrl and Enter keys at the same time.

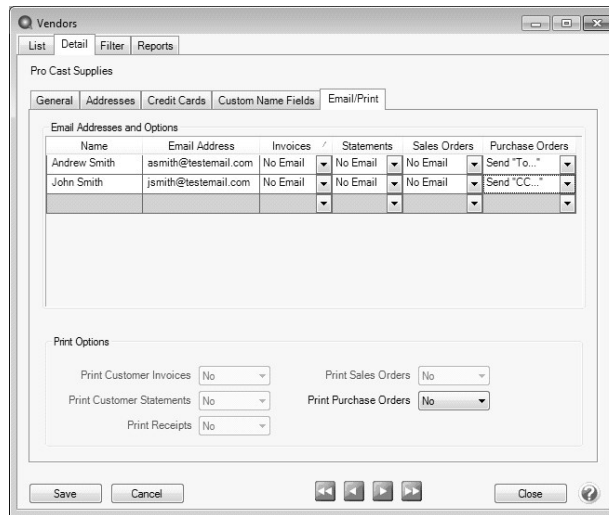

5. Select a default **Form** for emailing sales orders. This form will be used to format the PDF file that will be attached to the email.
6. Click **Save**.

### Step 3: Customer Email/Print Defaults

Prior to e-mailing a sales order to a customer, the customer file must include an email address and e-mail form options on the Email/Print tab.

If your customers don't currently have email addresses on the **Email/Print** tab in their record, use the following step to update their records individually.

1. Select **Setup > Names** or **Setup > Customers**.
2. Find the appropriate customer and click **Edit**.
3. Click on the **Email/Print** tab. The Email Addresses and Options fields that are active will depend on the modules that you have purchased and registered and if the name is a vendor a customer. Use these options to set up multiple email addresses where invoices, statements, sales orders, and purchase orders can be sent for this customer. You can also select how each email is to be sent, **No Email**, **Send "To..."** (directly to the recipient), **Send "CC..."** (as a carbon copy), or **Send "BCC..."** (as a blind carbon copy, for example, the person sending the email may want to enter their own email address so they have an audit trail of emails sent). The Email Addresses and Options settings will be used to set the default image on the Email button on the Customer Invoices (Basic), Customer Invoices (Detail), Receipts, Sales Orders and Purchase Orders entry screens. An envelope image with a check mark on it will mean the form will be emailed and an Envelope image with a cross-through on it will mean the form will not be emailed.

The **Print Options** fields that are active will depend on the modules that you have purchased and registered and if the name is a vendor a customer. The available fields are: **Print Customer Invoices**, **Print Customer Statements**, **Print Receipts**, **Print SalesOrders**, and **Print Purchase Orders**. Use these options to determine if invoices, statements, sales orders, and purchase orders should be printed for this vendor. The Print Options settings will be used to set the default image on the Print button on the Customer Invoices (Basic), Customer Invoices (Detail), Receipts, Sales Orders and Purchase Orders entry screens. A printer image with a check mark on it will mean the form will Print and a Printer image with a cross-through on it will mean the form will not print.

4. Click **Save**.

### Step 4 - Sent From and Optional Email Addresses

The Setup > General > Email Addresses menu selection is used to set the name and email address purchase orders are sent from. This menu allows you to select other Sent From email address for the different forms that you send via email.

You can optionally add email addresses where messages and attached documents can be sent to; including internal staff, outside accountants, or other addresses that are not related to the vendor the transaction is entered for. You can also select

how each email is to be sent, directly to the recipient, as a carbon copy, or as a blind carbon copy or set a default "From" email address for each document.

1. Select **Setup > General > Email Addresses**.

Name	Email Address	Customer Invoices	Print Checks/Invoices	Billing Statements	Sales Orders	Purchase Orders
Jack Smith	jsmith@outsideaccountant.com	Send "BCC"	Sent "From"	Sent "From"	Sent "From"	Sent "From"
Joe Hale	jhale@internalstaff.com	Sent "From"	Sent "From"	Sent "From"	Sent "From"	Sent "From"

Salesperson Email Options

Email Customer Invoices: Send "CC"

Email Sales Orders: Send "CC"

Save Cancel

2. Enter the **Name**, the **Email Address**, and select how **Sales Orders** should be sent, **No Email**, **Send "From..."** (the default e-mail address the purchase order is sent from), **Send "CC..."** (as a carbon copy), or **Send "BCC..."** (blind carbon copy).

## Step 5 - Printing or Emailing a Sales Order During Entry

When entering sales orders, the Print and Email icons will display the defaults for the selected customer. For example, if you have a customer setup to email only, the Print icon will display a red X on it and the Email icon will have a green check mark on it.

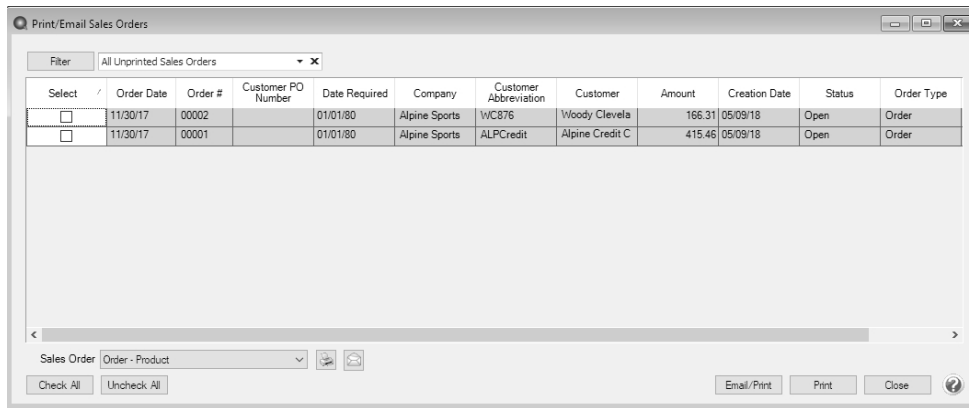

1. If a customer is setup to email their sales orders, the system will automatically prompt you to email the sales order when the sales order is saved.
2. You can change the print or email settings for a customer from the sales order entry screen by simply clicking on the Print or Email icons. If you click on the Email icon, the settings from the Email/Print tab in Setup > Customers or Setup > Names displays. You can add additional recipient e-mail addresses to the To, CC, or BCC boxes by separating the addresses with a semi-colon. You can also change the form the sales order should be printed on.
3. If you attached documents to a sales order (for example pictures of a product, specifications of a product, warranty information, etc),. you can email the attachments with the sales order. See the [Attach Documents to Transactions](#) topic for detailed information
4. Use the Print/Email Sales Orders screen to email a group of sales orders.

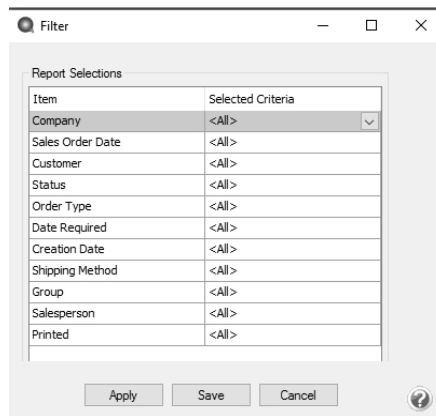

Note: if a customer has multiple sales orders selected in the Processes > Sales > Print/Email Sales Orders screen, they will get a separate e-mail for each sales order being sent. See the Step 6: Printing or Emailing Multiple Purchase Orders section of this document.

## Step 6 - Printing or Emailing Multiple Sales Orders

1. Select **Processes > Sales > Sales Orders > Print/Email Sales Orders**

- All unprinted sales orders will display, but the filter can be changed to display all unprinted quotes. If you would like to filter the list of sales orders that display, click the **Filter** button, select your filter criteria, and either **Apply** the filter to the list (you will see Custom in the Filter box) or **Save** the filter so you can select the named filter in the Filter box.

- To select all sales orders for printing, click **Check All** or select each sales order you want to print. To unselect all sales orders from the printing selection, click **Uncheck All**.
- Select the **Sales Order** form type.
- Click the **Printer** icon to select the printer and the number of copies to print.
- Click the **Envelope** icon to change the defaults set in File > Preferences > Email > Sales Orders for the Subject, Message, and Form.
- Click **Email/Print** to email and/or print all selected sales orders or click **Print** to print all selected sales orders. Sales orders will be printed and/or emailed based on the selections made for the customer in Setup > Customers or Setup > Names.
- Verify or change your Email Settings.
- Click **OK**.
- You will receive a *Process Completed Successfully* message when the sales order is e-mailed.
- Click **Close**.
