

1099 Forms - Correcting Completed 1099s

Document #:	3257	Product:	CenterPoint® Accounting
--------------------	------	-----------------	-------------------------

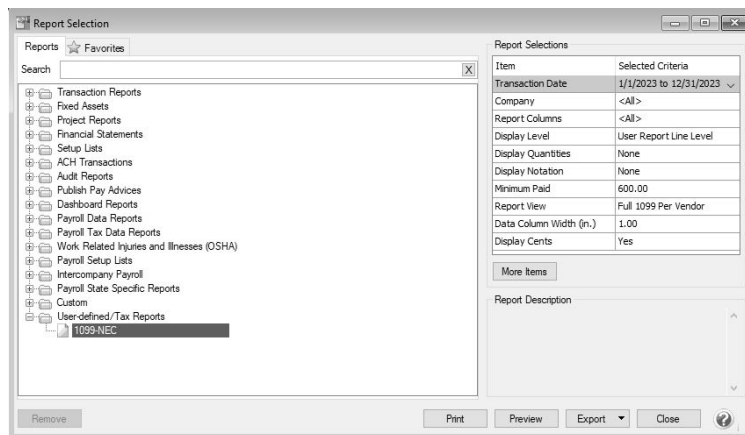

This document describes how to make corrections to processed 1099 forms.

The 1099 correction printing/efiling process includes multiple steps which are detailed below.

 **Note:** If you cannot locate a screen during this process, the screen may be behind your program window. To locate the screen, minimize your program window or simultaneously press Alt+Tab (and continue pressing Tab).

Exporting Data from CenterPoint Accounting

1. Select **Reports > Reports > Reports tab > User-defined/Tax Reports**.
2. Select the appropriate **1099 Form**.

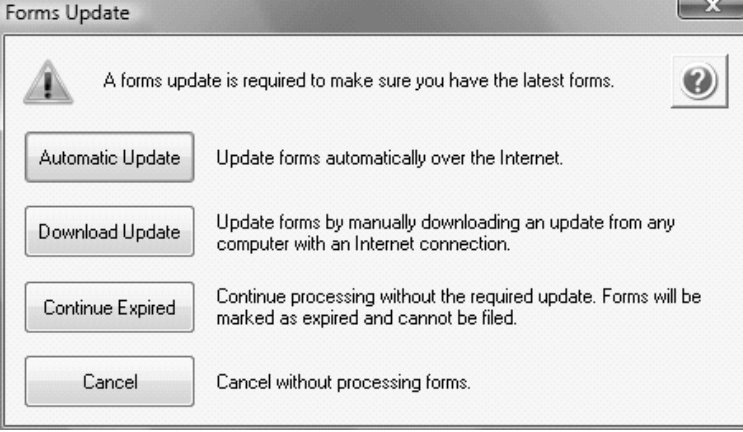

3. Fill in the **Report Selections** with the appropriate **Transaction Date**. To correct 1099s for the current tax year, enter the current tax year date range. To correct 1099s from a previous tax year, enter the date range for the previous tax year.
4. Fill in the Report Selections with the appropriate **Company**.
5. Click **Print**.
6. Click **Print Tax Forms**.

Forms Update

If you have internet access and the latest version of Federal/State Tax Forms (Aatrix) is not installed, the following **Forms Update** screen will automatically be displayed when you select the menu selection above. Simply click on **Automatic Update** and follow the on screen instructions.

 Note: Once the update begins, the window may be behind your program window. If you minimize your program window, you will see the progress of the update or there may be an icon in your task bar that when clicked will display the progress of the update.

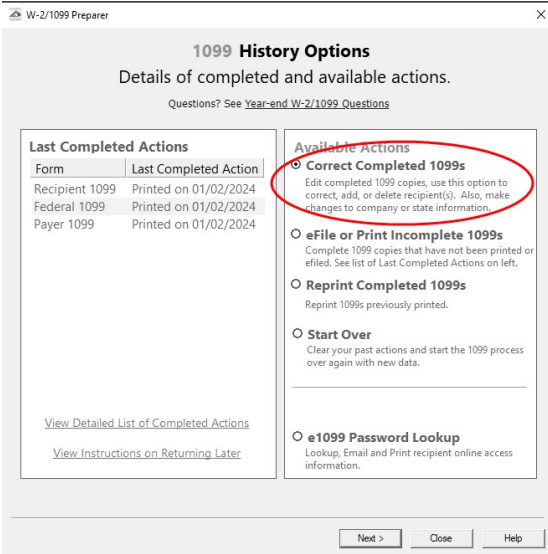

The dialog box titled "Forms Update" contains a warning icon and a question mark icon. It lists four options: "Automatic Update" (Update forms automatically over the Internet), "Download Update" (Update forms by manually downloading an update from any computer with an Internet connection), "Continue Expired" (Continue processing without the required update. Forms will be marked as expired and cannot be filed), and "Cancel" (Cancel without processing forms).

If a Forms Update was required, from the Report Preview screen, click the **Print** or **Print To** icons again or from the Report Selections screen, click the **Print** button again. If an update was not required, the 1099 History Options screen will display.

 Note: The 1099 History File Options screen that will display next may be behind your program window. To locate the screen, minimize your program window or simultaneously press Alt+Tab (and continue pressing Tab). There will not be an icon in your task bar that will identify that this screen is an active screen.

1099 History File Options

The following 1099 History Options screen will be displayed. Choose **Correct Completed 1099s** on the right and click **Next**.

The "1099 History Options" screen shows "Details of completed and available actions." It includes a table of "Last Completed Actions" and a list of "Available Actions". The "Correct Completed 1099s" option is circled in red.

Form	Last Completed Action

- » To correct any box values including names, addresses, and tax payer id numbers, simply select the box in the recipient row and just type in the new value.
- » To add a 1099 recipient to the W2/1099 Preparer grid, select Edit > Row > Insert and enter the new name, address, taxpayer id, box values, etc.
- » Do not remove recipients that are not being corrected; they need to remain in your filing. Only remove recipients if they in fact did not need a 1099 form from your company.

Note: When you change data in the Preparer, the column and row will change to a green color which is an indication that you are in correction mode.

- » For any data you change, the cell values will turn blue and the far left column in the row of the recipients 's name will turn green. Keep in mind that all the same error checking done in the Preparer applies again just as the first time you went through.
- » The Preparer will walk you through your particular correction depending on whether your initial 1099 process was printed, efiled, or you used the complete filing option.
- » When you have completed all changes, click **Next Step**, the Divider Sheet screen will display and then the Review Data action list will appear. The action list is created based upon the type of 1099 copies previously completed, what was changed in the 1099 Preparer, and the current status of the eFiling. All this information is compiled through the software to determine what needs to be completed for the corrections made.

After submitting, you will receive a new Aatrix Filing Identification Number (AFID).

Changes made to a recipient's 1099 filing after they have been delivered to the recipient will be marked Corrected. If the federal portion has not been filed yet, and you are eFiling, the corrected filing will replace the previous one. If the federal copies are filed, Corrected 1099s will be sent out.

 **Note:** If the eFile Center has not submitted the filing to the agency, there is no charge to send a replacement filing. If the filing has been submitted, there is a charge per corrected recipient only. Once your Federal Filing is processed a minimum charge will be implemented for all corrections. Please log on to your eFile account at efile.aatrix.com and select the Pricing tab to view your pricing.

- » If a State correction is required, and your state filing has already been submitted to the State agency, the corrections will need to be printed and mailed to the agency.

Frequently Asked Questions

Q: When corrections are made to 1099s at what point does Aatrix need to be notified about changing the eFile?

A: Aatrix is notified automatically through the eFile process. When the corrected eFile is received a new AFID is received. The status of the eFile can be viewed on the efile.aatrix.com website.

Below are few different scenarios regarding correcting 1099s. These scenarios will help you determine the differences that will occur during the 1099 correction process.

Example Scenario 1

A customer submitted the Complete Filing Option 1099s to Aatrix for e-filing and mailing out. A future date was selected for the e-file so Aatrix still has the filing. Corrections are made with the processes outlined above, do they need to notify Aatrix that there is new information to be mailed and efiled and is there a charge associated?

No, Aatrix does not need to be notified. When the customer selects to Correct 1099s and opens their history, Aatrix checks the status of their filing to determine what forms are needed based on the state of their filing. During the corrections process Aatrix tracks the changes, and when they eFile again they get a new AFID. Anything that hasn't already been processed will move forward to the new filing and use the new information. There is no charge to replace the filing, but if something has already been processed, then the customer is charged just for the additions, corrections, and deletions. This is all based on the status of the filing when the corrections are submitted. If nothing has been processed yet, then the replacement filing is free.

Pricing schemes change once Federal or State 1099s have been corrected. A \$14.95 minimum applies to all correction filings submitted after the Federal or State 1099s have been processed.

Example Scenario 2

A customer submitted the Complete Filing Option 1099s and Aatrix has processed the eFile and mailed out the copies. Corrections are made with the processes outlined above do they need to notify Aatrix that there is new information to be mailed and efiled and is there a charge associated?

No, Aatrix does not need to be notified. When the customer selects to correct 1099s and opens their history, Aatrix checks the status of their filing to determine what forms are needed based on the state of their filing. Example Scenario 3

A customer submitted printed copies of 1099s to their recipients. Corrections are made with the processes outlined above but not eFiled. Is there a charge for the corrected 1099s?

No, there is not a charge for reprinting corrected 1099s. If you process corrections after a filing has been sent to the agency, the software will produce corrected 1099s.
