

Name Groups

Document #:	3261	Product:	CenterPoint®
--------------------	------	-----------------	--------------

Create name groups (or categories) that are meaningful to your business. For example, you might group customers into industry groups (consultants, manufacturers, contractors, etc.) or geographic groups (north metro, rural, central city, etc.) or type of customer (Wholesale, Retail, Referral Partner). Name groups are used in reporting and as a filter to limit the range of names in many reports.
