

Salary Time Allocation

Document #:	3384	Product:	CenterPoint® Payroll
--------------------	------	-----------------	----------------------

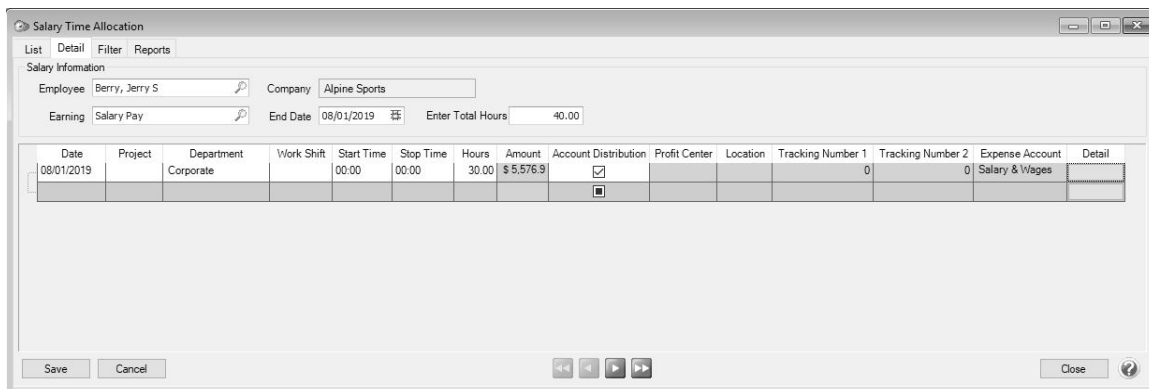

Use this selection to allocate hours and wages worked by salaried employees to Departments, Projects, Profit and Production Centers(Locations), Production Center Details (only if the Crop/Livestock modules are installed) and Accounts. By default all employee records that have a Salary Type Earning attached will appear on the list for each Employer and Company combination. Salary Time Allocation can be used in conjunction with Account Distributions (used to distribute salaried employee wages based on a formula) when the allocation needs to be modified for a particular pay run.

1. On the **Processes** menu, click **Salary Time Allocation** or on the **Processes** menu, point to **Payroll**, and then click **Salary Time Allocation**.
2. The employees that display will be those that you selected as a Pay Method of Salary. Select the salaried employee you want to add Salary Time Allocations to.

Employee Abbrevia...	Employee Last Name, First Name	Company Name	Total Amount
BerryJ	Berry, Jerry S	Alpine Sports	0.00
CedarS	Cedar, Stacey C	Alpine Sports	0.00
CottonJ	Cottonwood, John Q	Alpine Sports	0.00
DouglasJ	Douglas, Jeanne Z	Alpine Sports	0.00
OakG	Oak, Geraldine A	Alpine Sports	0.00
RedwoodT	Redwood, Tim X	Alpine Sports	0.00

3. Click **Add**.
4. The selected **Employee** will display.
5. In the **Earning** box, the salaried earning that was assigned to this employee will display.
6. In the **End Date** box, enter the end date of the pay period you are paying the employee in.
7. In the **Enter Total Hours** box, enter the number of hours in the employee's work week.
8. The grid will display the default entries for this employee.

Salary Information

Employee: Berry, Jerry S Company: Alpine Sports

Earning: Salary Pay End Date: 08/01/2019 Enter Total Hours: 40.00

Date	Project	Department	Work Shift	Start Time	Stop Time	Hours	Amount	Account Distribution	Profit Center	Location	Tracking Number 1	Tracking Number 2	Expense Account	Detail
08/01/2019		Corporate		00:00	00:00	30.00	\$ 5,576.9	<input checked="" type="checkbox"/>			0	0	Salary & Wages	

 **Note:** If the Account Distribution check box is selected, the distribution assigned to this employee can be viewed by clicking the Detail button. To view details about the assigned distribution, select Setup > Accounts > Distributions. After you change the Hours on the default department/account distribution line, the Profit Center, Location, and other tracking details will not be available on the next line until you unselect the Account Distribution check box.

9. Enter the project, department, work shift, profit center, production center details (only if the Crop/Livestock modules are installed), etc. that you want to allocate salary time to. These boxes will only be available when the Account Distribution check box is not selected.
10. In the **Hours** box, enter the number of hours that should be allocated on this date or enter the Start Time/Stop Time and the Hours will be calculated.
11. The **Amount** that should be allocated to this date will display. (Hours divided by Total Hours) * Amount. In the example below, 30 hours were allocated to the Corporate department, 2 hours were allocated to the Store department, and 8 hours were allocated to the Tours and Lessons department.

Date	Project	Department	Work Shift	Start Time	Stop Time	Hours	Amount	Account Distribution	Profit Center	Location	Tracking Number 1	Tracking Number 2	Expense Account	D
08/01/2019		Corporate		00:00	00:00	30.00	\$ 4,182.6	<input checked="" type="checkbox"/>			0	0	Salary & Wages	
08/01/2019		Store		00:00	00:00	2.00	\$ 278.85	<input type="checkbox"/>			0	0	Salary & Wages	
08/01/2019		Tours and Lessons		00:00	00:00	8.00	\$ 1,115.3	<input type="checkbox"/>			0	0	Salary & Wages	

12. Repeat for all dates that salary time should be allocated to until the number of hours entered in Step 6 are allocated.
13. Click **Save**.
14. When Save is selected, a time sheet is created for this salaried employee, however salaried employee time sheets are not displayed in Process > Time Sheets (which is only used for hourly and piece rate type earnings). Salaried time sheets will display in **Process > Pay Employees** when a new pay run is created for the pay period used in the salary time allocation for this employee and the **Exclude Default Pay Amounts** check box is selected.

 **Important Note:** The Exclude Default Pay Amounts check box should be selected so the default salary amount for earnings for this employee do not display when a salary time allocation has been entered. This will allow the salary time allocation time to display instead.

Company: Alpine Sports Pay Date: 8/1/2019 Pay Run Number: 00053

1. Select Employees 2. Enter Pay 3. Special Adjustments 4. Totals 5. Prepayment Reports 6. Print Checks

Pay Run Information

Company: Alpine Sports Pay Period From: 07/26/2019 To: 08/01/2019

Bank Account: Checking Number: 00054 Pay Date: 08/01/2019

Employees

Search For: By: Employee Abbreviation

Filtering: Employees selected: 1

Buttons: Save, Cancel, Close, Import Time Sheets

15. Click **Import Time Sheets**.
16. The Salary Time Allocation time sheet will display in the Time Sheet Earnings section (not in the Regular Earnings section, as a result of selecting to Exclude Default Pay Amounts). Click the **+ plus sign** to display each line of the salary time allocation.

17. Continue processing the pay run as you normally would to post and print checks.
18. After posting and printing checks, you can view the posting details of the allocation by printing a General Ledger Account Activity report from **Reports > Reports > Transaction Reports > General Ledger > General Ledger Account Activity** grouped by Profit Center and Project.
